Ballance level 1:

Gabriel Páramos: Did most of the scripts and tests to calibrate the physics and directed and organised the project.

Xavier Rodríguez: He was the one responsible for the textures of the game and some animations. He also helped with the map construction.

Alejandro Monge: Designed the map and created most of them. Also helped with the ball physics.

Jose Lorenzo Correas: Implemented several specific scripts and game mechanics as well as the fans and the consumables, timer, and start/end screens.
